### Maintenance of Oiled tables

**Common daily care:** we recommend dry cleaning, wipe with duster or slightly damp cloth, DO NOT clean or maintain with steam excessive water, DO NOT use common detergents, Osmo Wash and Care is recommended.

**Spilled fluid:** as soon as possible wipe dry not to soak into the table.

**Local minor repairs (scratches):** use original Osmo Polyx Hardvax Oil, notice that in case of coloured oils the repair will be visible for some time.

**Deeper and major repairs:** please contact a specialist.
