# Mineral wall .

With Modee, our mission is to make great design accessible to everyone.

**We believe that creating beautiful spaces shouldn't come at the expense of your time, budget, or skills.**

That's why we've introduced **Mineral Wall - Slabs & Tiles**, an innovative wall covering solution crafted from natural minerals.

No compromises,  
just effortless design.

Our promise? Smart Style - a seamless blend of practicality and sophistication. With Modee, it's never been easier to transform your space into a statement of elegance and personality.

# Modee LOCK

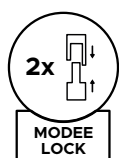

## - effortless elegance.

With **Modee**, we combine versatility with innovation to offer a range of formats, textures and enhanced features that will improve your wall design.

## Modee LOCK

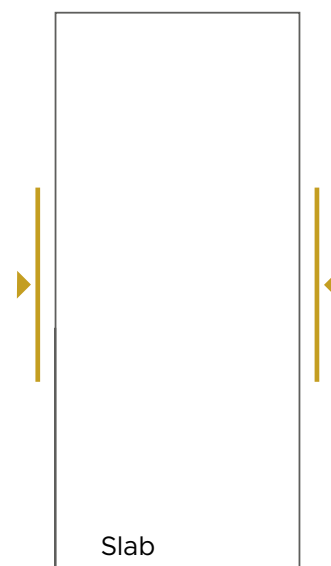

Available with 2- and 4-sided locking systems, ensuring effortless installation, perfect alignment, and a secure fit.

The special groove for silicone creates watertight connections, making the panels extremely moisture-resistant and ideal for wet areas.

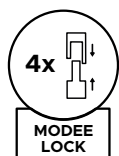

- 2-side Modee LOCK

Seamless bevel

Deco Bevel

Tile

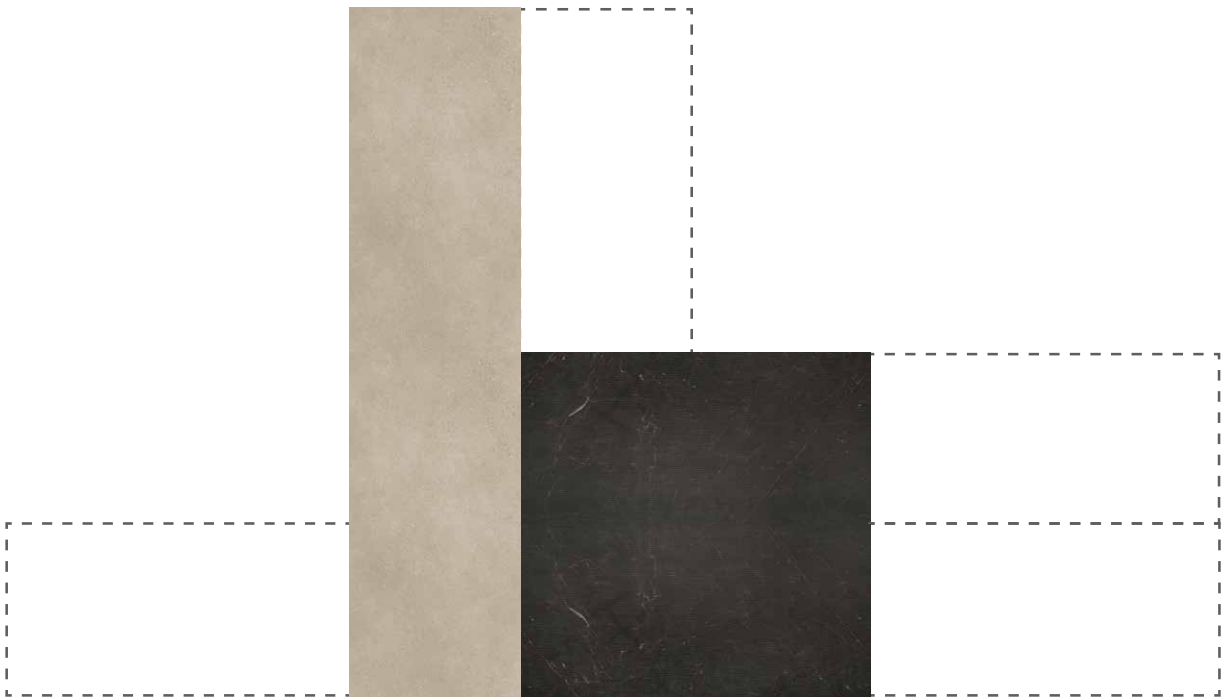

### Ultra-thin 4 mm design

– maximum durability with minimal thickness.

4 mm  
thin

Thanks to their thoughtful design and versatile formats, the tiles can be seamlessly connected – vertically with horizontally, short edges with long edges – and allow for the mixing of different shades and textures to create a truly unique, personalized pattern.

## DecoBevel

A subtle groove design that mimics the look of grout lines, giving your walls a sophisticated, realistic finish.

Available in TILES only.

# Discover the collections.

## Stone Essence

A tribute to the beauty of nature with designs inspired by marble, sandstone, limestone and travertine, adding timeless elegance to your interiors.

## Raw Concrete

This minimalist and industrial collection captures the raw appeal of concrete and is perfect for modern and trendy spaces.

## True Wood

Warm, natural wood tones that create a cozy and inviting atmosphere, also available in grooved wood design for a structured, modern look.

# Textures.

Capturing the raw, industrial charm of urban design.

Ribbed textures add depth and elegance, ideal for modern interiors.

Synchronized wood patterns for a natural, authentic feel.

# Assembly in 5 steps

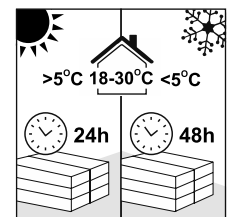

**Modee** is an innovative decorative product designed for various residential and commercial spaces. Thanks to its functionality, the wide variety of available patterns, and easy installation, it offers an attractive interior design solution. It is characterized by high dimensional stability; however, due to fluctuating thermal conditions, expansion joints must be used at the edges to relieve stress.n.

1.

## Preparing the wall and tiles

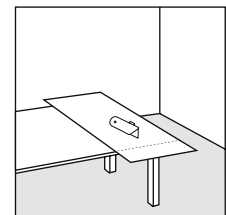

The wall must be dry, even, and clean. Leave the panels in the room for 1-2 days before installation so they can acclimatize to the temperature.

2.

## Measuring and cutting tiles

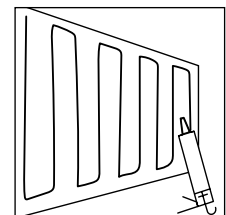

Cut the measured tile to size using a knife or saw. If necessary, also cut out an opening for the electrical outlet.

3.

## Apply the adhesive

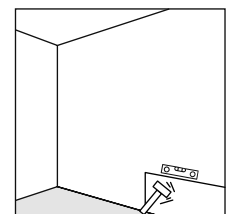

You can apply the Modee adhesive either to the wall or directly to the tiles – in vertical strips every 10 cm, with a 1-2 cm gap from the edges. Also apply adhesive around openings.

4.

## Installing the tile

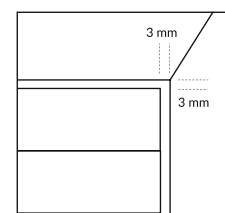

Press the tile against the wall with your hand or a rubber mallet. Use a spirit level to ensure it is straight.

5.

## Connecting the next tiles and leaving grout lines

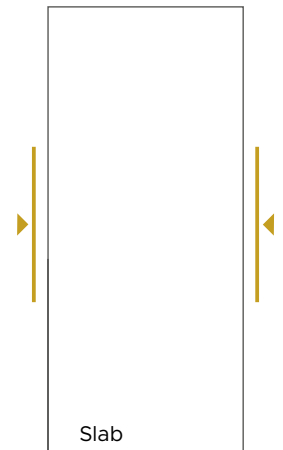

Slide the next tiles into the previous ones using the tongue-and-groove system. Leave a 3 mm gap at the ceiling, in the corners, and at the floor – then fill this gap with silicone sealant.

## Easy installation

WATCH &  
DO IT NOW!

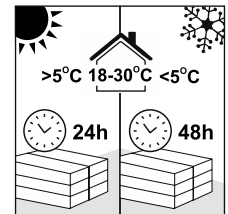

Slab

1.

### Preparing the wall and tiles

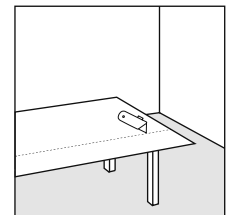

The wall must be dry, flat, and clean. Leave the slabs in the room for 1-2 days before installation to allow them to acclimatize to the temperature.

2.

### Measure and cut the slab

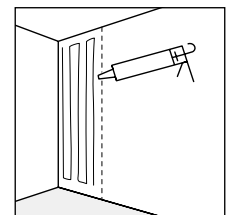

Cut the measured slab to size using a knife or saw. If necessary, also cut out an opening for the electrical outlet.

3.

### Apply adhesive

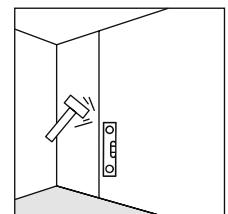

Apply the adhesive to the wall in vertical strips spaced 10 cm apart, leaving a 1-2 cm gap at the edges. Also apply adhesive around the cutouts.

4.

### Attaching the slab

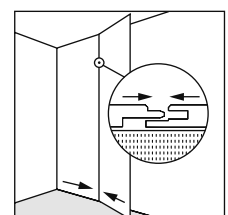

Press the slab against the wall with your hand or a rubber mallet. Use a spirit level to ensure it is straight.

5.

### Connecting further slabs and leaving gaps

Slide the next slab into the previous ones using the tongue-and-groove system. Leave a 3 mm gap at the ceiling, in the corners, and at the bottom – then fill this gap with silicone.

# Good interiors are harmonious interiors.

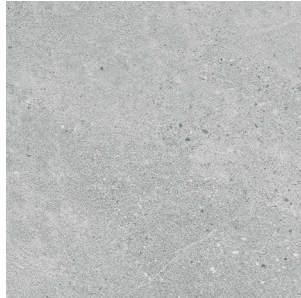

**A harmonious interior means more than just choosing colors and furniture. The interplay of shapes, materials, and light is crucial.**

In the Arbiton Forma collection, you'll find six decors that are coordinated with selected Modee decors. This creates sophisticated combinations where walls and floors interact naturally—without accidental contrasts, but with consistent harmony.
